User stories

As a user, I want to register to create a new account on the platform.
As a user, I want to log in using my email and password to access my account.
As a user, I want to log out to be able to switch accounts or simply close it because I want to.
As a user, I want to recover my password if I forget it so I can access my account.
As a user, I want to change my password to maintain the security of my account.
As a user, I want to edit my profile information, such as name and email, to keep my personal information up-to-date.
As a user, I want to delete my account to stop using the platform's service.
As a user, I want to verify my email after registering to ensure that my account is secure.
As a user, I want to receive email notifications about any changes in my account settings.
As a user, I want to set up two-step authentication methods to increase the security of my account.
As a user, I want to create a board to start a new project and organize what I need to do.
As a user, I want to edit the details of a board, such as the name or description, to keep the data updated.
As a user, I want to delete a board to remove projects that I have completed or that are no longer necessary.
As a user, I want to define different states (such as 'To Do', 'In Progress', 'Done') for my boards to be able to follow the progress of tasks.
 As a user, I want to create tasks and assign them to a state to effectively organize how the work is progressing.
As a user, I want to set priorities for tasks (High, Medium, Low) to indicate their importance.
As a user, I want to assign tasks to team members and have them see the tasks so that they are aware of their roles.
As a user, I want to change the status of tasks as work progresses to keep the board updated.
As a user, I want to see a list of all the tasks assigned to me to prioritize my workload.
As a user, I want to be able to sort tasks within a state by priority or due date to see what to do first and organize myself.
As a user, I want to be able to filter tasks by assigned user, state, or priority so that finding what I need is easier.
 As a user, I want to receive notifications when a task that concerns me is updated or completed to keep me informed all the time.
As a user, I want to be able to comment on tasks to talk to the participants directly in each task.
As a user, I want to receive email notifications about important updates on my boards so I don't miss anything important when I'm not in the app.
As a user, I want to set task reminders to receive alerts before due dates that remind me I have to do them.
As a user, I want to duplicate tasks so I don't have to create them from scratch when I need similar tasks.
As a user, I want to archive completed tasks to clean up the board without losing access to the information of tasks already done, i.e., a history.
As a user, I want to have public and private boards to manage who can see my projects.
As a user, I want to invite other users to my boards using their email address.

As a user, I want to set user permissions on boards to control who can see or edit certain information.

As a user, I want to be able to see a history of changes in each task to see the progress since each task was started.

As a user, I want to integrate my board with other tools like Google Calendar to see my tasks on the calendar.

As a user, I want to have a calendar view on the board to visualize due dates and other important events chronologically.

As a user, I want to upload documents to tasks to share important files with the board participants.

As a user, I want to be able to add subtasks within the main tasks to break down the work and make a task not so heavy.

As a user, I want to be able to customize the appearance of my board to incorporate friendly tones or images that reflect the idea of the board.

As a user, I want to be able to see who is online on the board to know who else is working in real time.

As a user, I want to be able to set goals for the team and track the progress of those goals.

As a user, I want to receive alerts if a task is at risk of not meeting its deadline so I can take preventive measures.

As a user, I want access to a quick search function that allows me to quickly find any task or message within the board.

As a user, I want to have a 'favorites' area where I can save tasks or boards that I need to review frequently.
